

Ministry of Agriculture, Water and Forestry (MAWF)

EXPRESSION OF INTEREST

TO ESTABLISH A POULTRY FARM THROUGH PUBLIC PRIVATE PARTNERSHIP (PPP)

The Government has been operating a poultry farm at Okatope in Oshikoto region which was managed through Development Brigade Corporation (DBC). This project experienced management problems as a result the production was discontinued and infrastructure (equipment) is still available. The Government commissioned a feasibility study in 2007 to investigate the viability of poultry farming as a business entity in the Northern regions.

The feasibility study was completed in 2008 and the findings revealed that there is potential for poultry production and marketing in the country. The Government through the Ministry of Agriculture, Water and Forestry is committed to the continuation of this project in order to make use of the available market (domestic and external) opportunities.

The Ministry is therefore inviting interested parties to submit business proposals to revive the poultry production in the Northern regions through Private Public Partnership (PPP).

Interested parties are invited to collect detailed documents on the project including the 2008 feasibility study report from Mrs. Sophy Kasheeta or Mr. Erich Petrus.

Interested parties are expected to present a complete business plan.
